We find in the Bangor Commercial Ad-The fact which it describes is a remarkable one, and is apparently well authenticated. It is worthy the attention of the physiologist, and must strike terror to the drunkard, if he

is susceptible of any feeling. [Landmark.] IGNITION OF HUMAN BLOOD. We observe in the Morning Star, an interesting experiment which was performed by Jacob C. Hanson, a medical student of South Berwick, Me., on the blood of a common drunkard, who was a resident of that village in August last. The circumstances were briefly these. Mr. Hanson had some time previous to his trying the experiment, read in some of the physiological authors that on the dissection of the cerebrine of a defunct drunkard, a fluid was discovered in its frontal sinus, which on being extracted and ignited by the anatomist, burned with a blue flame. From opportunity soon occurred for testing the truth of his conjecture. An habitual and confirmed drunkard, came staggering into the office of the physician with whom Mr. H. was a student. This object of pity and disgust was inhaling an oder more resembling alcohol than the breath of a human being. His eye was inflamed and flushed, and his whole system had been saturated with rum for a fortnight without cessation; during the time he had taken little food but had swallowed two gallons of Rum, in the course of the previous five days. Mr. H. remarked that there was some danger of his perishing by spontaneous combustion, and observed to him that he might derive considerable benefit from being bled, giving it as his opinion that the blood was much encumbered with alcohol, and that he could ignite it, or in the words which he used to the drunkard, " set it on fire."

This last remark was followed by a request from the drunkard that he should be bled, which was performed without delay. From the odor which was perceptible to all present the moment the fluid followed the lancet, it was evident that it consisted of a mixture of blood and alcohol. This was fully confirmed by the epxeriment which followed. A pint bowl filled with this fluid was handed to one of the spectators who ighited a match and bringing it in contact with the contents of the bowl, a conflagration immediately ensued: burning with a blue flame for the space of twenty-five or thirty seconds. Mr. H. concludes his account of this curious and interesting experiment in the following observation. This is not a solitary one. words:-

The above experiment which resulted in a phenomenon thus brilliant, and which I had respectable gentlemen, together with a worthy and respected physician, my tutor, who were present and who in the subjoined certificate vouch for the authenticity of the fact I now submit to the public.

JACOB C. HANSON. TO THE PUBLIC.

We the undersigned, residents of South Berwick, Me., do hereby certify that we were present and witnessed the experiment above

> CHARLEE TRAFTON, JOHN G. WEBSTER, JOHN KENNARD.

We cannot conclude our notice of this singular phenomenon without urging on the votaries of intemperance a serious considethe miscrable sufferer into deeds of the darkest dye, and urge him forward in the madening course of debauchery and blasphemy. We trust that this experiment will have the effect of waking up the philanthropist, and urging on the friends of temperance to wage an unceasing warfare with this overpowering and desolating evil, until the "blue flame' which has risen from the blood of a fellow drunkard.

From the Temperance Recorder.

THE DRUNKARD'S PROGRESS-A FACT. I S was the son of respectable parents. His father dying while he was young, left in the hands of his guardian for his son, a handsome property, sufficient to his body to prison. Some of his acquain- as usual, and their correspondents equally able to support all his wants. He was apprenticed | tances bailed him out to the "liberty of the to a trade, and served faithfully, giving yard." He remained within "the limits" dreaded to have him leave, and made him one person, and sometimes for another, at an advantageous offer to enter into partner- such work as he could perform. Garden. ship with him. He accepted, and com- ing in the summer, and doing chores in the menced business under the most flattering winter, were his usual occupations. Finally fidence of his partner, the love and affection keeper, and bound himself out during life, of his customers, no one's prospects for for his board and clothes. He used to take future usefulness were brighter than his. care of horses, make fires, &c. At this Business flourished. CHOICE LITERATURE.

HEN this work was about commencing, the Proprietors, in their Original Prospectus, stated, that their facilities were very great for conducting a publication of the kind. The selections already have given great ratisfaction. "The Life of Sir James Mackintosh," "Kincaid's Rifle Brigade," and "Characteristics of Hindostau," are works that at the same time are interesting and instructive. Nathing hearing a interesting and instructive. Nothing bearing different character shall ever find a place in the Library.

As a proof of our facilities, we have commerced in No. 14, the publication of a work of His tory and Fiction, by James—received by us one month in advance of any other Publisher. This gentleman is the author of those deservedly popular " " D'Lorme." " Risk best." gentleman is the author of those deservedly popular works, "Darnley," "D'Lorme," "Risk feu." "Phil ip Augustus," "Henry Masterton," "John Marston Hall," "Mary of Burgundy," "The Gypsy," &c. The present work will sustain his high reputation. The scene is laid in Frace, during the reign of its gayest monarch, Henri Quartre, and is full of those beautiful descriptions and stirring incidents which characterize his and stirring incidents which characterize his writings. It is entitled

ONE IN A THOUSAND

THE DAYS OF HENRI QUATRE. This work will be completed in advance of the regular days of publication to gratify our numerous readers, with-what, when they con we are convinced they will anxiously look forrhe Denouement. Our extraordinary facilities will enable us to

be always in advance with works of this and many other celebrated authors. The Library is published weekly, each nun containing 20 imperial octavo pages, in a stitched cover. The Literary Chronicle which accompa-

nies it contains 4 pages, and is bound up at the completion of each volume at the end of the work. Five dollars per annum, payable in advance.

Address to CAREY & HART.

Or LOUIS A. GODEY, Agent. Philadelphia, Jan. 19, 1836.

THE SILK CULTURIST.

HE Executive Committee of the Hartford County Silk Society, have commenced a monthly publication, called the Silk Culturist and Farmer's Manual. The object of the publication is to disseminate

a thorough knowledge of the cultivation of the Mulberry Tree, in all its varieties—the rearing of Silk Worms—the production of Cocoons, and the reeling of Silk, in the most approved method. The importance of this knowledge will appear from the fact that the nett profits of land devoted to the culture of Silk, is double, if not triple to that derived from any crop which can be put upon it. It is also a fact, that every farmer can raise several hundred dollars worth of silk, withsess himself of information on the subject—for without it his attempts will be fruitless. It is, therefore, the object of the Committee to diffuse this information as extensively as possible, and at the cheapest rate. The publication will contain a complete manual or directory from sowing the seed to reeling the Silk, together with such facts and experiments, as will enable farmers to raise Silk, and prepare it for market, without forther knowledge or assistance. It will also contain interesting matter on agricultural subjects in

TERMS.-The Culturist will be published in monthly numbers of Eight Quarto Pages, at Fifty Cents a year. No subscription will be received unless paid in advance, and for not less the .

Subscriptions received by F. G. Comstock, Secretary, Hartford, Conn., to whom also com-munications may be addressed, which if post paid, will be attended to.

TEditors who will copy the above, shall receive the publication for one year. Hartford, April, 1835.

THE SILE MANUAL.

SINCLAIR & MOORE and ROBERT SINCLAIR, r., proprietors of the Farmer and Gardener, Baltimore, announce to the public that they have just published a complete Manual of the Mulberry and Silk Culture, compiled by the editor of said paper, from the most approved works upon the subject. It will contain-. a brief historical view of the silk business -2. directions for sowing the Mulberry seed, nurturing the Mulberry plant, transplanting it into hedges, or standard orchards, and the subsequent management thereof-3. the mode of preserving and hatching the silkworm eggs; the manner of rearing and feeding the worms, the mode of airing the laboratories, and the prevention and treatment of their several diseases-4. the manner of constructing a cheap laboratory or cocoonery -5. the process of reeling, dying, and making sowing silk, twist, &c., together with calculations of the probable nett produce of given quantities of land set in Mul. berry, as tested by actual results, both in this country and Europe. In which calculations it will be clearly and satisfactorily demonstrated that an acre of ground properly cultivated in Mulberry, is capable of feed. ing a sufficient number of worms to realize from the silk raised therefrom, after detraying all expenses of cultivation, a sum exceed. ing \$560. In addition to the interesting matter contained in the manual, which is full upon every subject connected with the culture, it will have a copious and well digested Index, made so easy that any thing required can be found without difficulty. In fine it will comprise every thing that a farmer who desires to enter into the culture need know.

Orders for the above work will be received, post paid, for any number of copies, by either the editor or proprietors. As the number of copies in pamphlet form will be limited, and numerous orders have already been received, persons wishing to secure a supply will do well to make early application. 07 Pace 50 cents per copy—usual dis

count to booksellers. Booksellers, Postmasters, and store keep. ers at a distance, can have their orders promptly filled.
